At the October meeting, a committee was created to focus on patterns. The committee reported they have met five times. Their goal was to have impartial members who do not bowl NEBA as part of the committee. The two non-bowling members are Tom Hankey and Greg Tack. They will help to create patterns, select patterns and be part of the voting. This year we had many recreation patterns which did not play easy. The committee's goal is to have patterns play as advertised, schedule a variety of patterns of all types and work with centers to put down appropriate patterns. The committee will submit a written proposal at the next meeting.
 1. No Motion: Have Kegel create a large bank of patterns with multiple within each set of parameters for centers to use then only use those patterns.
 2. No Motion: Have NEBA provide the houses with oil pattern options vs. letting the house come up with patterns that meet criteria
 3. No Motion: Let house select from bank of patterns. A committee of non-NEBA bowlers will choose 2-3 patterns for the house to choose from taking into account the center's lane surface.
 4. No Motion: For standard recreation patterns, use the center's house shot.
 5. No Motion: Have centers select more recent name patterns.
 6. No Motion: Switch pattern type from "Sport, Challenge, Standard" to anticipated scoring pace "low, medium, high"
 7. No Motion: No longer publish pattern. Give parameters only and have pattern PDF hung up on site or don't hang up at all.
 8. No Motion: Use sport patterns up to 3:1 for majors, 3:1 to 5:1 for challenge and no more than 8:1 for standard.
 9. No Motion: Evenly distribute oil pattern types so similar amounts of short, medium and long (excluding special events)
